

DARLEY DALE & DISTRICT TWINNING ASSOCIATION

Twenty First Century Twinning

Darley Dale & District Twinning Association has launched a new website, particularly to attract interest from anyone living in the area, who would like to know more about its activities. It can be accessed simply by going on the internet and typing in the address box www.darleydaletwinning.org.uk. There you will find details of the association, its history, how to become a member and information about its french twin town, Onzain, situated in the Loire Valley, between the major cities of Tours and Blois.

Chairman of the Twinning Association, Kevin Senior said, "We hope that this website will be accessed by many people, not just in the locality but by the internet world. Members will have exclusive access, by password, to information available only to them. In addition, it is hoped to use the site as the main source of communication with our members".
